

# Weighing Device

Product Code: 2889

Designed to integrate with the Allegro Sonata and Alto Hoists.

The Weighing Device offers a simple and effective way to monitor patient weight during transfers—without compromising comfort, safety, or lifting range. Designed for integration with overhead hoists, this compact digital scale delivers real-time, accurate weight readings to assist with care planning, medication dosing, and assessments.

Its lightweight, robust design ensures easy handling and reliable use in both acute and aged care environments. With intuitive controls and clear digital display, caregivers can confidently support patient wellbeing while streamlining daily workflows.
