Care Appropriate

The Staebel Relax Trio is an ultralight cushion that benefits from four sections of FloGel being positioned into a polyurethane base, with a viscoelastic foam upper layer. It is specially designed to conform to the shape of the user, increasing surface area and relieving pressure. Suitable for low to at risk users, the low profile cushion can be rotated either up or down; it has no designated front or back.

To preserve foam integrity, the inner polyurethane (PU) film coating provides an additional barrier against fluid ingress, enhancing the longevity of the memory foam, particularly beneficial for users with incontinence.

Product Features:

- 1.5" (40mm) thick
- Recovery foam upper layer with a fast recovery foam core and a viscoelastic slow foam base.
- Rotatable cushion with no front or back.
- Clear protective (PU) film coating with no seams is easy to wipe clean and is suitable for incontinent users.
- Highly durable and lightweight.
- Suitable for those low to at-risk of pressure injury
- Outer cover can be machine washed (60°C)
- Includes a black wipeable, 4-way stretch, vapour permeable, water resistant outer cover
- WARRANTY: 2 Years
