Mattress

Highest Infection
Control

Constructed with a single-core foam interior, the mattress supports four-way turning to extend product life and promote even wear. Its heavy-duty PVC cover is fully sealed and enclosed, providing a robust barrier that protects the foam core from damage and contamination.

The cover features a double-laminated surface to regulate internal pressure regulation and ensures mattress longevity. High-frequency welded seams ensure the mattress is waterproof, preventing fluid ingress and supporting strict infection control protocols. Designed to withstand challenging conditions, the Zonecare Mental Health Mattress is hypoallergenic, anti-static, fire retardant, and resistant to tearing, stains, and microbial growth, making it a reliable choice for secure healthcare settings.

- Product Features:**
- High-Security Construction: Fully sealed, enclosed cover with high-frequency welded seams to prevent tampering and protect the foam core from willful damage
 - Enhanced Infection Control: 100% fluid-proof, anti-microbial, stain-resistant surface that meets and exceeds hygiene requirements
 - Durability and Longevity: Single-core foam with four-way turn capability and integrated air valve for extended use and structural integrity
 - Safety-Compliant Materials: Fire-retardant, hypoallergenic, and anti-static properties for patient and staff safety
 - Safe Working Load 200kg
